

## Home Cooking for Your Dog & Cat

### What NOT TO FEED:

Alcohol - dog's liver cannot metabolize, small amounts can be toxic

Avocado - leaves, fruit, bark contain Persin, toxic to dogs

Chocolate - Theobromine, stimulant in cocoa bean

Citrus - gastrointestinal irritation, central nervous system depression

Cooked bones - can cause choking and puncture wounds

Grapes - renal failure, unknown why

Raisins - renal failure, unknown why

Grease - high fat content can cause diarrhea

Onions - oils in onions contain antioxidant, negatively affects hemoglobin in red blood cells

Rawhide - loaded with toxins & preservatives

Seasoned Meats - usually chemically preserved, salted, smoked, spiced

Soy - not readily digested, can cause gas and bloating

Sugar - undesirable spike in blood sugar
